- 8. Examiner's Statement of Reasons for Allowance
- 9. Other _____.

DETAILED ACTION

1. **ALL independent Claims 1,10,20,27,35 and 38** have been amended.
2. **Dependent claims 19,23 and 30** have also been amended.
3. **Claims 7, 16, 22 and 29** have been cancelled..
4. **New Claims 42-44 have been** added.

Allowable Subject Matter

5. **Claims 1-44** are allowed.
6. The following is an examiner's statement of reasons for allowance:
7. With respect to **the independent claims 1,10,35 and 38** the art on the record, namely the combination of **Kephart and Nachenberg** discloses all of the limitation of the recited claim 1,10,35 and 38 before the claim were amended. However claim 1,10,35 and 38 are amended by the applicant and the following limitation was added to the respective independent claims, "the checksum is calculated as a running checksum on a line-by-line basis as the incoming message is received". As applicant persuasively argued the art on the record namely the combination of **Kephart and Nachenberg** does not disclose or suggest this particular added limitation of the respective claims. None of the prior art of record taken singularly or in combination teaches or suggests a computer implemented system/method with all the limitations recited in respective claims in combination with the functional limitation which is added after amendment.

Art Unit: 2132

8. With respect to the independent claims 20 and 27 the art on the record, namely the combination of **Kephart and Nachenberg** discloses all of the limitation of the recited claims 20 and 27 before the claim were amended. However claims 20 and 27 are amended by the applicant and the following limitation was added to the respective independent claims, “a set of digests, each comprising the message digest and the infection indicator corresponding to each infected message content.” As applicant persuasively argued the art on the record namely the combination of **Kephart and Nachenberg** does not disclose or suggest this particular added limitation of the respective claims.

None of the prior art of record taken singularly or in combination teaches or suggests a computer implemented system/method with all the limitations recited in respective claims in combination with the functional limitation which is added after amendment.

For the reasons provided above, the amended independent claims 1,10,20,27,35 and 38 are allowed.

9. The dependent claims, which are dependent on the independent claim 1,10,20,27,35 and 38 being further limiting to the independent claims, definite and enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled “Comments on Statement of Reasons for Allowance.”
